

1. INTRODUCTION:

Events create opportunities for people to connect with an area, spend time together, celebrate and experience the diversity of cultures and foster creativity and innovation. They allow a community to alive and provide an opportunity for a destination to showcase its tourism experience and increase economic activity. Event contribute significantly to community building, life style and leisure enhancement, cultural development, tourism promotion and increased visitation, volunteer participation, fund raising and economic development. Most importantly, events create a sense of fun and *vibrancy*, resulting in a strong sense of community connectivity, pride and a sense of place

1.1 OVERVIEW:

In this project we explored “Build an event management system using salesforce”.

Initially we created salesforce login Id using salesforce .com website. Afterwards we completed course videos. Created empathy map ideation and Brainstorming using mural account. Then we created objects, tabs, applications, fields, profiles, user and permission sets and finally reports.

Finally, we created GitHub account and submitted project through GitHub.

1.2 PURPOSE:

The potential benefits of hosting major events from the perspective of the visitor economy include:

1.STRUCTURAL EXPANSION OF THE VISITOR ECONOMY:

Visitors coming to a city or region for an event will contribute to a more buoyant economy, with visitor expenditure having a multiplier effect on incomes throughout related supply chains, with the multiplier effect the host destination shall benefit in terms of employment, income and better standards of living.

2.ALIGNMENT OF TOURISM WITH OTHER STRATEGIES:

The requirements of hosting a major event can be used to, promote an integrated whole-of government approach, and maximize synergies between relevant development and growth infrastructures constructed for events are one of the most visible lasting legacies for a host city or region and can have real impacts for tourism growth.

3.MARKETING AND PROMOTION:

Pre-event branding associated with the successful hosting of a major event, can provide lasting recognition of destination branding in key tourism markets, encourage return visitation of attendees or participants, and a better understanding of the focus of the event such as sports arts, and culture, food and wine, etc.

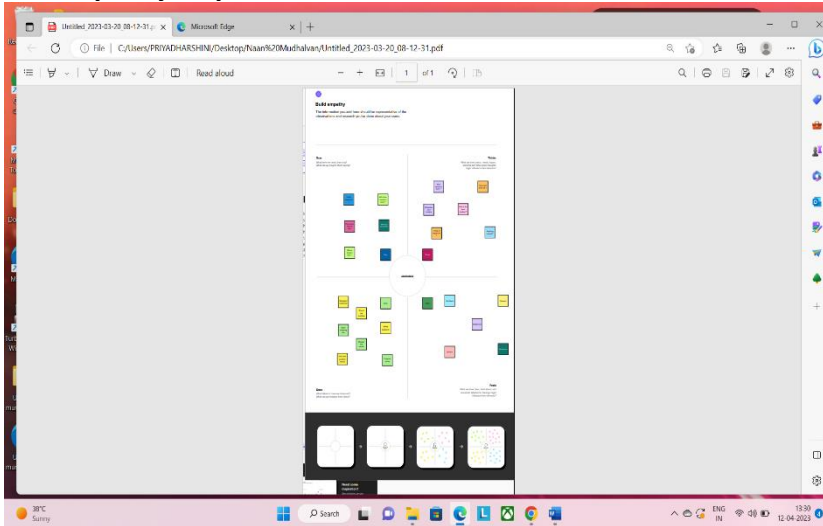

4.ENVIRONMENTAL IMPACTS:

The international focus often associated with major events can help to prioritise work on an often under-developed or neglected build environment and therefore the attractiveness and competitiveness of destination .in addition, ensuring that events are managed in an environmentally friendly manner is also becoming a high priority in terms of branding

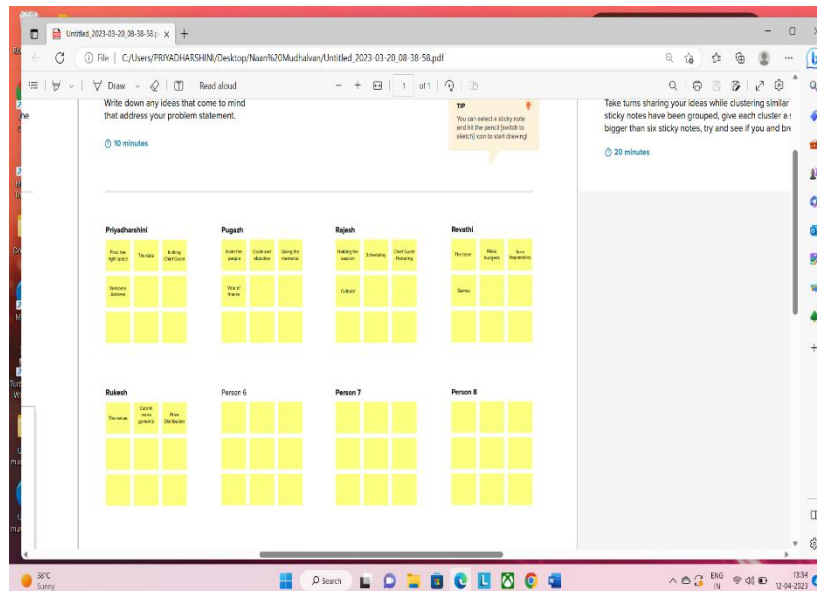

A positive legacy can encourage community and stakeholder support for an event, represent a tangible return on investment, or justification for public expenditure.
